For Outdoor Use on

“MAXFORCE®COMPLETE BRAND GRANULAR INSECT BAIT is a ready-to-use product for use indoors and outdoors and around buildings, on lawns, and other non-crop areas* such as residential areas, the non-food/non-feed areas of institutional and commercial establishments including warehouses, restaurants, food processing plants, supermarkets, hospitals, nursing homes, motels, hotels, apartment buildings, schools, laboratories, computer facilities, pet shops, zoos, sewers, highway rights-of-way and medians, traffic islands, utility rights-of-way (including power lines, pipelines, aqueducts) managed turf areas (non-crop) (including school yards, playgrounds, athletic fields, amusement parks, picnic areas, recreation areas, office parks, industrial grounds, airports, shopping centers, public parks, arboretums, public gardens, monument sites, cemeteries and mausoleums, golf courses, race tracks, fairgrounds, outdoor amphitheatres, sod farms, and ornamental nurseries). Do not graze or feed lawn or sod clippings to livestock.”

“Siesta® Insecticide Fire Ant Bait can be applied:

- In nurseries in and around container or field-grown fruit and nut tree stock;
- In nurseries in and around container or field-grown ornamental and nursery stock;
- On lawns, turf, landscaped areas, golf courses, sod farms, industrial/municipal sites, other non-crop/non-grazed areas, such as airports, roadsides, cemeteries, commercial grounds, parks, school grounds, picnic grounds, athletic fields and other recreational areas;
- On grounds surrounding poultry houses (excluding runs and ranges) or corrals and other animal holding areas;
- Outdoor areas around residences and residential areas, commercial and other structures, warehouses, hotels, motels, supermarkets, hospitals, and nursing homes;
- Outdoor areas (other than orchards) described above which include bearing and/or nonbearing pome, stone, citrus, and nut trees.

Siesta may also be applied to nonbearing fruit and nut trees, vines, brambles and bushberries grown in commercial ornamental nurseries. Nonbearing trees, vines, brambles and bushberries are grown in ornamental production nurseries where immature and/or inedible fruit of nuts or berries may appear on the tree, vine, bramble and bush but are not intended for harvest or consumption.”

For Indoor Use On

“VOID CONTAMINATION OF FOOD, FOOD CONTACT SURFACES AND FEEDSTUFFS. NOTE: Indoor applications are limited to areas that are inaccessible to children or pets, such as cracks, crevices, wall voids, unfinished attics, crawl spaces, refillable tamper-resistant bait stations, and behind electrical switch plates, within residential and non-residential buildings or structures and within non-food/non-feed areas of industrial, institutional, and commercial buildings. Non-food/non-feed areas include bedrooms, living rooms, bathrooms, closets, media rooms, garbage rooms, lavatories, entries, vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling).”

Not for indoor use.

Not For Use On

“The use of this product on pasture and rangeland is unlawful. Do not graze or feed lawn or sod clippings to livestock. DO NOT USE ON EDIBLE FOOD CROPS OR ON AREAS INTENDED FOR EDIBLE FOOD CROP PRODUCTION.”

“DO NOT graze or feed lawn or sod clippings to livestock.”

“DO NOT apply to the soil around fruit and nut trees more than 4 times a year.”
