## For Outdoor Use on

“Use TANGO™ in, but not limited to, the following areas: table grape vineyards, wine grape vineyards, almond and other nut groves, citrus groves, commercial nurseries including field grown and container stock, non-bearing and bearing fruit crops, row crops, residential turf and landscapes, perimeter areas of buildings, homes, sheds kennels, barns, poultry houses, swine operations, dairies, and other areas where ants are a problem.”

“PROVAUNT® may be applied on landscape and recreational (including golf course) turf grass and landscape ornamentals including trees, shrubs, foliage plants, flowers and non-bearing fruit and nut trees, which will not produce a raw agricultural commodity during the season of application. PROVAUNT® may only be used on plants or turf grasses that are being grown for aesthetic or recreational purposes or climatic modification in or around home lawns, residential dwellings, business and office complexes, shopping complexes, multi-family residential complexes, institutional buildings, airports, cemeteries, interior plantscapes, ornamental gardens, parks, playgrounds, schools, golf courses (tee box areas, roughs, fairways, greens, collars etc.), athletic fields and other landscaped areas”

## For Indoor Use On

“Use TANGO™ to treat indoor ant infestations in these and other areas where ants are a problem: homes, restaurants, taverns, food service, hospitals, apartments, buildings, barns, poultry houses, dairies, swine operations, warehouses, food preparation and processing facilities.”

Not for indoor use.

## Not For Use On

“When applying to the base of plants, do not apply to the soil. Do not apply to any plants which are grown to provide harvestable food (fruits, vegetables, nuts, roots, tubers, etc.). Not for use on plants being grown for sale or other commercial use, or for commercial seed production. Do not apply this product in commercial nurseries and greenhouses or on sod farms. Keep people and pets away from treated areas until treatment has dried.”
